

Learning Base Autumn Term

Welcome back after the Summer break.

We hope that you all had an enjoyable holiday!

Maths

As mathematicians the children will be counting forwards and backwards in ones, twos, fives, threes and tens up to 100. We will also start to count above 100. They will practise adding two numbers together (starting with counting on and moving onto partitioning) and will begin to recite the number bonds to 10, 20 and 100. The children will also learn how to solve subtractions. They will learn the features of 2D and 3D shapes and be able to name them and their properties. They will also look at how to measure length and height.

English

In English the children will begin with learning about stories with a familiar setting. Children will work on writing extended sentences using adjectives, conjunctions and correctly punctuating sentences.

Science

As scientists the children will find out about living things and their habitats and animals, including humans. They will also develop their investigative skills. They will learn about how habitats provide the basic needs for what lives there and how they are different depending on what lives there. Children will also learn how animals can gain their food from plants and other animals.

Religious Education

In RE we will be looking at 'Questions that puzzle us' and explore mysteries and puzzles by posing questions. Children will also retell a religious story.

Art

As artists the children will be creating an autumnal collage based on the work of Giuseppe Arcimboldo.

Design and Technology

In DT, children will be planning and creating a healthy salad as part of a meal.

P.E

This term the Learning Base will be receiving PE lessons from Soccer 2000 with a focus on multi-skills. Children will also have a weekly dance or Gym lesson. See timetable as children will join their year groups for these sessions.

History

In History, the children will be learning about Toys old and new. They will look at the different toys they played with when they were a baby to what they play with now as well as the toys parents and grandparents played with.

Geography

In Geography the children will be learning about the countries of the UK, their capital cities and the different landmarks. Children will then learn about the 7 continents of the world and how to use an atlas.

Music

As musicians the children will be learning to sing different songs. They will also be learning to play different percussion instruments.

Computing

In Computing the children will practise logging on and become more familiar with the keyboard. Children will learn about the parts of a computer and how to use a word program, practising changing the font, size and the colour of texts. E-safety is taught throughout the year.
